1 Professional Summary

- Proficient in front-end development with React, Tailwind, CSS, HTML, and TypeScript (beginner level).
- Skilled in back-end development with Python, Django, Django REST Framework, and Node.js (beginner level).
- Experienced with databases including PostgreSQL, SQLite, and SQL Server (beginner level).
- Proficient in tools such as Visual Studio Code, YouTrack, and Git.
- Certified in MERN stack development.

2 Projects

- **Task Manager** — Developed a task management app using REST and Django, with features for task creation and tracking. Integrated automated testing and CI/CD pipelines for quality assurance. Code available on [GitHub](#).
- **Car Rental Web App** — Working as a part-time developer at Code Lab (June 2025–Present) on a car rental web application using Python, Django, Django REST Framework, React, TypeScript, and PostgreSQL. Development is ongoing. Access at eagleeyerent.com. Code on [GitHub](#).
- **Mobileri** — Working on a furniture e-commerce website using React, TypeScript, and Tailwind CSS. Development is ongoing. Access at 686957db0e652594518b8c58-cute-pasca-13256d.netlify.app. Code on [GitHub](#).

3 Work Experience

3.1 Software Quality Assurance

SD Work Italy

June 2025 – Present

- Responsible for designing and executing test plans, including functional, non-functional, regression, performance, and smoke testing.
- Perform bug reporting and documentation to ensure high-quality software deliverables.
- Collaborate with development teams to enhance software quality and user experience.

3.2 Part-Time Developer

Code Lab, Tirana, Albania

June 2025 – Present

- Developing a car rental web application using Python, Django, Django REST Framework, React, TypeScript, and PostgreSQL.
- Contribute to frontend and backend development, ensuring seamless integration and functionality.

3.3 Software Tester

FZA, Tirana, Albania

February 2025 – May 2025

- Executed functional, non-functional, regression, and performance testing on complex software, ensuring robust functionality and scalability.
- Designed and managed test cases in YouTrack, streamlining testing processes through detailed tracking and reporting.
- Documented test outcomes and recommended improvements, enhancing software quality and user experience.

3.4 Team Lead Customer Service Support

Assist Digital, Tirana, Albania

- Led a team of 15 agents, streamlining workflows and training to boost performance metrics.
- Implemented process improvements to enhance team efficiency and service quality.

3.5 IT Help Desk Agent

Multiservis Center, Tirana, Albania

- Resolved 50 daily technical queries, cutting ticket resolution time by 15%.
- Created a knowledge base of solutions, improving team efficiency and consistency.

3.6 Electronic Technician

Available Electronic, Tirana, Albania

- Repaired and tested electronic devices, ensuring compliance with quality standards.
- Reduced repair turnaround time by 10% through process improvements.

4 Languages

- Albanian: Native
- English: Professional Proficiency
- Italian: Professional Proficiency

5 Hobbies and Interests

Exploring emerging technologies, solving coding challenges, hiking, and fitness.
